School Savings Bank.

The ladies of the Woman's Christian Temperance Union are making an effort to have the School Savings Bank system introduced in the public schools of this borough, and it looks very favorable for the establishment of a savings bank. Prof. Lenkerd has been desirous for sometime of having the Savings Bank introduced here. One drawback to it was that our banks do not pay interest on deposits, but this difficulty can now be overcome by a citizen of the town offering a \$5,000 bond and taking the money at three per cent interest.

About five hundred schools in the United States have the Savings Banks in successful operation. It is claimed that wherever the simple system of taking care of the scholar's pennies, that would otherwise be foolishly expended for needless sweets and the like, is used in the schools that the children are happier, more self-reliant and have better habits. The money the children deposit through the School Savings Banks in public schools is made a valuable object lesson; they have the receipt cards and bank books showing its amount. They can check it out, receive interest on it and learn thereby initial business methods. Habits of thrift, industry and self responsibility are formed, generosity cultivated, waste, intemperance and other vices, resulting from careless extravagance with money and ignorance of its better uses and accumulative power, guarded against.

Will Build Fifty Houses.

When the Star Glass Company decided to locate at Reynoldsville the company made the proposition that the Reynoldsville Land Improvement Company give them ten acres of land for their plant and that the citizens of town build fifty houses near the plant to rent to glass workers, or that the Land Company give the Glass Company twenty-five acres of land and the company would build their own houses. At a meeting of the citizens held in Stoke's hall last Thursday evening it was decided to give the Star Glass Co. twenty-five acres of land, fifteen acres of which is for dwelling houses.

The Star Glass Co. has had a large map made of the twenty-five acres. Sixty lots, 42 x 125 feet have been laid out. Boulanger Avenue, Kunz Avenue, Myrtle Avenue and Park Way are the names of the streets laid out. The company will build fifty houses and have them ready for occupancy before the first of September.

Damages for False Imprisonment.

During Ed. C. Burns' term as sheriff of Jefferson, when Frank C. Miller was deputy, E. L. Chaffe, of Ohio, was arrested and jailed as a suspicious character. The arrest was made at request, by telephone, of a prominent citizen of Corsica. Chaffe was kept in jail four hours and then released without any person making information against him. Mr. Chaffe sued Ex-Sheriff Burns and Ex-Deputy Miller for \$10,000 damages for false imprisonment. The case was tried in the Jefferson county court last week. Ex-Sheriff Burns, who was not at home at the time of arrest, was acquitted, but the plaintiff was awarded damages against Mr. Miller in the sum of \$300.00.

County Treasurer's Compensation.

As they are required by the law to do, the county commissioners and county auditors on last Saturday fixed the compensation of County Treasurer Reitz for the three years of his term, as follows: One per cent on all county moneys received from ordinary sources, as taxes, etc.; two per cent for paying out ordinary county moneys up to ninety thousand dollars and one per cent for paying out all such moneys in excess of ninety thousand dollars; on moneys received from the sale of county bonds and temporary loans, one per cent for paying out the same. This is a small reduction on the percentage allowed County Treasurer Lucas.—Brookville Democrat.

The paper will be full of news and other matter of interest to all who have been to Clarion. Claude R. Jones, of Jefferson county, is one of the editors and subscriptions may be sent to him.

The lecture of W. T. S. Culp on "Uncrowned Kings," in the M. E. church last night was a splendid success. Tribune. At Assembly Hall Friday evening, February 2nd.
